Profile

I am a passionate and hard-working person who thrives on turning complex problems into elegant, user-friendly applications. I'm looking forward to an entry-level position in front-end development. I strongly believe that you can achieve anything if you are willing to learn and work hard enough. I do have the passion and the ability to learn fast. I am driven to collaborate, contribute, and create applications that enhance user experiences.

Education

Meta Front-End Developer Professional Certificate

DECEMBER 2022 — PRESENT

TASTE-Culinary Business Academy, Brasov

My projects

HireChef-Website

Planning an important event can be frustrating at times. Finding a good chef or the right menu is not an easy task.

This project helps users by presenting a list of professional chefs and a selection of fine menus to choose from.

Functionality

- Users can create an account or log in with the preset demo user credentials to book a meeting, access their meetings and view their ratings.
- Users can edit or delete their meetings.
- They have the option to rate the chef they collaborated with (the rate button will appear only if the meeting date has passed).
- On the rating page, users can view or delete their ratings.

Technology used

- ReactJs
- Firebase (Hosting, Authentification, Firestore Database)
- Redux Toolkit
- Npm
